ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz

0123456789

Special Characters:

!@#\$%^&\*()\_+-=[]{}|;':",./<>?

©®™€£¥\$%&'()\*+,-./:;<=>?@

Accented Characters:

ÀÁÂÃÄÅÆÇÈÉÊËÌÍÎÏÐÑÒÓÔÕÖØÙÚÛÜÝÞß

àáâãäåæçèéêëìíîïðñòóôõöøùúûüýþÿ

## Multilingual Support

### Sample Text in Different Languages

English: The quick brown fox jumps over the lazy dog.

Spanish: El rápido zorro marrón salta sobre el perro perezoso.

French: Le renard brun et rapide saute par-dessus le chien paresseux.

German: Der schnelle braune Fuchs springt über den faulen Hund.

Italian: La volpe marrone veloce salta sopra il cane pigro.

Portuguese: A raposa marrom rápida pula sobre o cão preguiçoso.

Note: For proper multilingual support, ensure appropriate fonts are uploaded as assets.

### Font Comparison Table

| Font Family     | Style                   | Best Use Case            | Sample Text        |
|-----------------|-------------------------|--------------------------|--------------------|
| Roboto          | Modern Sans-serif       | UI, Mobile Apps          | Clean and friendly |
| Open Sans       | Humanist Sans-serif     | Body Text, Web           | Highly readable    |
| Lato            | Semi-rounded Sans-serif | Corporate, Professional  | Warm and stable    |
| Montserrat      | Geometric Sans-serif    | Headlines, Branding      | Urban and stylish  |
| Source Sans Pro | Gothic Sans-serif       | Technical, Documentation | Clear and neutral  |

# Testing Instructions

## How to Test Custom Fonts

1. Download fonts from Google Fonts or other sources (see fonts/README.md)
2. When making the API request, include font files as assets:

```
curl -X POST http://localhost:8081/api/v1.0/print \  
-F 'htmlFile=@3-custom-fonts.html' \  
-F 'assets=@fonts/Roboto-Regular.ttf' \  
-F 'assets=@fonts/Roboto-Bold.ttf' \  
-F 'assets=@fonts/OpenSans-Regular.ttf' \  
-F 'jsEnable=false' \  
--output custom-fonts-test.pdf
```

3. The CSS processor will sanitize font references while preserving font-family declarations
4. Font files will be available in the temporary directory for PDF generation
